Congress 2014

Dirk Strumane, President, opened Congress by welcoming the member federations present. There were 20 in total by the end of the meeting.

The EC had prepared a full report on the IAU activities for first two years since the last Congress in Seregno in 2012.. This had been circulated just prior to Congress and the President and members of the Executive Council presented the details to the meeting. (Available on the website)

In the subsequent general discussion with member federations, various points were made. There is a need for more transparency and engagement with member federations before key decisions are made by the Executive Council. The new practices for World Best Performances were cited as an example, together with the discussions about the development of trail competition. The EC agreed the need to take this forward.

Jan Vandendriessche presented the financial statement for the IAU which was circulated to members present at the meeting.(Downloadable from IAU website)
